Experience

Office of Information Technology (UHCL)

Aug 2021 - Present

Student Assistant

- Maintained a network of over 100 computers across campus, implementing system hardening measures to enhance endpoint protection and reduce downtime.
- Executed thorough testing on campus-wide equipment to proactively identify vulnerabilities and perform basic vulnerability assessments.
- Assisted over 500 students with software guidance, technical troubleshooting, and security tool configuration, fostering a collaborative learning environment.
- Enhanced IT operations by contributing to security documentation, network maintenance, and the implementation of new technology initiatives, improving overall efficiency by 10–15%.

Association of Software and Computing Integration (ASCI)

2025 - Present

Co-Founder & Vice President

UHCL

- Co-founded a university technology organization focused on software development, cybersecurity principles, and systems integration.
- Led strategic planning and oversaw event logistics, project coordination, security audits, and compliance reviews across cross-functional teams.
- Organized industry-focused events connecting students with professionals in software engineering, threat detection, and incident response.

Projects

AI Resume Coach Agent

- Built a local-first AI web tool using Python, Flask, and Ollama LLMs to analyze resumes and deliver structured feedback; implemented secure PDF upload with input validation and caching to protect user data, supporting job-tailored insights and Markdown export with an animated UI

Smart Inventory Replenishment System

- Developed a full-stack inventory web app with Python, Flask, and SQLite, integrating product search, low-stock detection, and CRUD operations; applied secure session management and core data structures to optimize performance and ensure data integrity

Minimax AI Tic-Tac-Toe

- Built using Python and Pygame with Minimax AI difficulty levels and player vs player functionality. Separates display logic and game logic across modular files.

Personal Portfolio Website

- Designed and developed a responsive portfolio website using HTML5 and CSS3 to showcase personal projects, skills, and experiences. Features clean UI, contact section with icons, and hosted using GitHub Pages for easy access and visibility.

Skills

- **Languages:** Python, Java, C#, C, HTML, CSS, SQL
- **Frameworks & Libraries:** Flask, Pygame, LangChain
- **Tools & Technologies:** Linux, Git, GitHub, SQLite, Render, Unity, Ollama (LLMs), Excel, PowerPoint, Visual Studio Code, Formspre
- **Web & Cloud Technologies:** GitHub Pages (static hosting), REST APIs (basic), Responsive Web Design
- **Soft Skills:** Problem Solving, Critical Thinking, Adaptability, Communication, Team Collaboration
- **Cloud:** Microsoft Azure Fundamentals (AZ-900)
- **Certifications:** Junior Cybersecurity Analyst Career Path by Cisco, CyberOps Associate course by Cisco
- **Cybersecurity Skills:** Cybersecurity Principles, Cybersecurity Technologies, Threat Detection, Incident Response, Vulnerability Assessment, Security Audits, Compliance Reviews, Security Documentation, Security Policies, Security Procedures, Security Tool Configuration, SIEM, Firewalls, Endpoint Protection, Identity and Access Management, System Hardening

Education

University of Houston Clear Lake

Aug 2021 - Present

Bachelor, Computer Science, Minor in Cyber Security

San Jacinto

Jun 2023 - 2024
